Adding New Agents

Via Import (Recommended)

```
# Import all agents from a division
npx tsx scripts/import-agents.ts --division engineering

# Import specialized agents
npx tsx scripts/import-specialized-agents.ts
```

Via Manual Creation

1. Create directory: `workspace/agents/<agent-slug>/`
2. Create `soul.md` with frontmatter and content
3. Run sync: `pnpm exec tsx scripts/sync-agents.ts`

Soul.md Template

```
